ANNALS OF HUMAN BIOLOGY, 1993, VOL. 20, NO. 6, 617–618

SUBJECT INDEX

Adiposity in Czech children followed from 1 month of age to adulthood: analysis of individual BMI patterns 517
Age and height as predictors of peak expiratory flow rate in Indian girls 147
Age at menarche from a Biscayan coastal population (Basque Country) 191
Ages at peak velocity for seven body dimensions in Japanese children 67
Anthropometric-hormonal correlation patterns in fertile and post-menopausal women from Austria 47
Association between height and some structural social variables: a study of 10-year-old children in Stockholm during 40 years 469
Austria, fertile and post-menopausal women from, anthropometric-hormonal correlation patterns in 47

Basque boys aged 8–19, skin colour variability in 293
Basque Country, age at menarche from a Biscayan coastal population 191
Basques in Spain and in neighbouring populations, HLA frequencies in 109
Bod girls, adolescent, of the Western Himalayas: respiratory adaptation to high altitude in 575
Body fat distribution in men and women of the Hispanic health and nutrition examination survey of the United States: associations with behavioural variables 275
British Isles, genetic structure of human populations in 215

Calcutta, healthy non-smoking women of, pulmonary function studies in 31
Case study of daily growth during adolescence: a single spurt or changes in the dynamics of saltatory growth? 595
Co-evolution of glucose-6-phosphate dehydrogenase deficiency and quinine taste sensitivity 497
Correlations of birth weight and gestational age across generations 231
Czech children, followed from 1 month of age to adulthood, adiposity in: analysis of individual BMI patterns 517

Daghestan (Caucasus, Russia): phenotypic and genetic affinities among ethnic populations in: a comparison of polymorphic, physical, neurophysiological and psychological traits 455
Dental measurement, accurate, a new method for 487
Dynamics of growth of weight, circumferences and skinfolds indistance, velocity and acceleration .. 239

Estimating inbreeding from the Faculty Office Registers, 1534–1540 357
Evidence for a secular trend in heights and weights of adults in Papua New Guinea 349

Faculty Office Registers, 1534–1540, estimating inbreeding from 357
Fertility, test of a path model of biocultural transmission of 335
Fluctuating dermatoglyphic asymmetry: genetic and prenatal influences 557

Genetic polymorphisms in the white population of Victoria, Australia 411
Genetic structure of human populations in the British Isles 215
Growth and health status of preschool Karen highlanders 21
Growth of children in an iodine-deficient area in northern Zaire 183
Guatemalan adolescents, serum alkaline phosphatase activity and skeletal maturation in 39

Height, weight, BMI and weight-for-height of adults in southern Iran: how should obesity be defined? 13
Himalayas, Western, respiratory adaptation to high altitude in adolescent Bod girls of 575
Hispanic health and nutrition examination survey of the United States, body fat distribution in men and women: associations with behavioural variables 275
HLA frequencies in Basques in Spain and in neighbouring populations 109

Inbreeding and developmental stability in a small human population 389
Inbreeding effects on prereproductive mortality: a case-control study in Saguenay-Lac-Saint-Jean (Quebec, Canada) based on a population registry 1838–1971 535
Indian girls, age and height as predictors of peak expiratory flow rate in 147
Individual and community characteristics influencing breastfeeding duration in Vietnam 325

Inertial characteristics of children and their application to growth study 433
Iran, southern, height, weight, BMI and weight-for-height of adults in: how should obesity be defined? 13
Isonymy structure of four Venezuelan States 131

Japanese children, ages at peak velocity for seven body dimensions in 67

Karen highlanders, preschool, growth and health status of 21
Khartoum, path analysis of some determinants of infant growth in 381

Maximal aerobic power in high-altitude runners 395
Microevolution in Perugia: isonymy 1860–1990 261
Mitochondrial DNA polymorphisms in Negroid populations from Namibia: light on the origins of the Dama, Herero and Ambo 477
Monozygotic twins, a serial study of normal facial asymmetry in 527

Namibia: mitochondrial DNA polymorphisms in Negroid populations from: light on the origins of the Dama, Herero and Ambo 477
New method for accurate dental measurement 487

Papua New Guinea, evidence for a secular trend in heights and weights of adults in 349
Path analysis of some determinants of infant growth in Khartoum 381
Perugia, isonymy 1890–1990: microevolution in 261
Phenotypic and genetic affinities among ethnic populations in Daghestan (Caucasus, Russia): a comparison of polymorphic, physical, neurophysiological and psychological traits 455
Population structure and immigration: a study of the Valserine Valley (French Jura) from the 17th century until the present 565
Prevalence and fertility study of haemochromatosis in Saguenay-Lac-Saint-Jean 501
Pubertal development in South-Hungarian Boys and girls 71
Pulmonary function studies in healthy non-smoking women of Calcutta 31

Reference values and standards for paired organs 75
Relation between serum uric acid and blood pressure in adolescents 423
Respiratory adaptation to high altitude in adolescent Bod girls of the Western Himalayas 575
Respiratory conditions, including asthma, and height in primary school 369
Russia, Caucasus, (Daghestan): phenotypic and genetic affinities among ethnic populations in: a comparison of polymorphic, physical, neurophysiological and psychological traits 455

Saguenay-Lac-Saint-Jean (Quebec, Canada), inbreeding effects on prereproductive mortality: a case-control study in: based on a population registry 1838–1971 535
Saguenay-Lac-Saint-Jean, a prevalence and fertility study of haemochromatosis in 501
Secondary sexual development in rural and urban South African black children 583
Serial study of normal facial asymmetry in monozygotic twins 527
Serum alkaline phosphatase activity and skeletal maturation in Guatemalan adolescents 39
Shaker commune, American, nineteenth century, stature among members of 121
Skin colour variability in Basque boys aged 8–19 293
Social change, height, and body mass in Victorian youth, 1805–1914 155
South African black children, rural and urban, secondary sexual development in 583
South-Hungarian boys and girls, pubertal development in 71
Stature among members of a nineteenth century American Shaker commune 121
Stockholm, a study of 10-year-old children in during 40 years: the association between height and some structural social variables 469

Test of a path model of biocultural transmission of fertility 335

United States: body fat distribution in men and women of the Hispanic health and nutrition examination survey of: associations with behavioural variables 275

Valserine Valley (French Jura), population structure and immigration: a study from the 17th century until the present 565
Venezuelan States, four, isonymy structure of 131
Victoria, Australia, genetic polymorphisms in the white population of 411
Victorian youth, 1805–1914, social change, height, and body mass in 155
Vietnam, individual and community characteristics influencing breastfeeding duration in 325

Zaire, northern, growth of children in an iodine-deficient area in 183

ANNALS OF HUMAN BIOLOGY, 1993, VOL. 20, NO. 6, 619–621

INDEX OF AUTHORS
